Prices correct as at 1st November 2007.

1 At any time.

2 During the evening and weekend only.

3 Valid for 30 days from date of connection. A MMS compatible phone is required

4 Valid for 30 days from date of connection subject to GPRS connection.

5 Provides unlimited browsing on mobile phones in the UK. Compatible device required. Not applicable to connection via CSD. Subject to coverage. To ensure a high quality of service for all our customers a fair use policy applies. T-Mobile defines fair use as total UK data (both sent and received) of up to 1GB per month. T-Mobile may contact customers who exceed 1GB of data and ask them to reduce their usage. If data usage is not reduced, notice may be given, after which network protection controls may be applied. Not to be used for other activities (including but not limited to): modem access for computers, internet based video/audio streaming services, peer to peer file sharing, internet based video downloads, internet phone calls and instant messaging. If such use is detected, notice may be given after which network protection controls may be applied. The application of network protection controls will result in a reduced speed of transmission.

6 Applies to messages sent from your mobile phone or via the 'My T-Mobile' website; www.t-mobile.co.uk

7 You will be charged for messages sent to non GSM networks.

*Please go to the "help & Support" section of our website, t-mobile.co.uk, for details around "non-standard" service charging. This includes charges for numbers starting with 05, 070, 08 (including 0870), 09 and 118. Calls to these numbers are subject to a 1 minute minimum call charge unless otherwise stated. Remember that calls to these numbers are not included in your monthly allowance.

Points to note.

- Your **inclusive minutes allowance** (shown on your bill as 'inclusive time' or 'allowance') is the number of inclusive minutes included in your monthly plan. Your allowance includes voice, fax and data calls (but excludes calls to the T-Mobile WAP service and calls made whilst abroad). Numbers prefixed with 08 are not included in your allowance.
- If your **inclusive minute allowance runs out during a call**, we will charge you for the remainder of that call.
- The allowance you have used is worked out when we print your bill. You can **get an estimate of the amount you have used** by calling the T-Mobile account enquiry service (dial 150). The estimate includes the inclusive minutes you have used up to the time of your enquiry in the current billing period. If there is a difference between the enquiry service estimates and the amounts shown on the bill, the latter takes precedence.
- When you join a T-Mobile pay monthly plan, **you should be sent your first bill within 2 weeks of becoming a customer**. Your first month's charge and inclusive minutes allowance will be proportionate to the number of days from your date of joining to the date of the bill. All monthly charges and inclusive minute allowances will be proportionate to part months used, except where this would conflict with any other clause of the agreement.
- **Per second charging** applies to all types of chargeable calls (unless otherwise stated). Charging starts when a call is answered by a person or an answering device. The call is billed at the rate applicable at the start of the call. However for pay monthly customers, if the call exceeds two hours in length and crosses into a different part of the day (for example, from 'daytime' to 'evening'), the remainder of the call will be charged at the new rate.
- **A call ends when:**
 - a) you end the call on your device; or
 - b) 16 seconds after your calling device loses signal for any reason (note: we continue to maintain the call in case your device re-establishes a signal with our network within this period); or
 - c) you do not end the call on your device, up to 30 seconds after the last third party you were connected to has ended their call.
- On the bill, for pay monthly customers a call within the allowance will be rounded to the nearest second. Customers who top up and use that top up to make calls, those calls will be rounded to the nearest penny and VAT will be charged on each individual call. All chargeable calls will be subject to a minimum charging per call of 5p unless otherwise stated.
- Certain charges will appear on your bill rather than being deducted from your top up credit. These services are; text allowances, MMS bundles, Caller Tunes subscription charge, £3 charge for processing payments where you do not pay by direct debit and T-Mobile Browsing Bundles.
- Diverted calls are charged at the local or national call rate or, if appropriate, the relevant mobile or special number rate. Diverted calls are not included in any inclusive minutes you may have.
- Additional charges may apply whilst using your T-Mobile phone abroad.
- Additional charges (e.g. international call charges, premium rates etc) can be found on www.t-mobile.co.uk/whatitcosts or our 'Non standard charges' leaflet.
- A text message consists of up to 160 characters. If you send a longer message, you will be charged for two or more text messages as appropriate.
- For U-Fix customers all calls made whilst roaming will be billed per second after the first minute.
- For U-Fix customers all GPRS session charges will be rounded to the nearest half kb.
- For U-Fix customers any business registered customers on these price
